

Making Simplified Billing a Reality

Streamline, Automate, and Simplify one of the largest expenses of your business.

► Bill Consolidation

Improve operational efficiency by generating a fully-automated unified bill consolidating all healthcare, insurance, and voluntary benefits premiums for each of your benefit providers.

► Total Reconciliation

Ensure billing integrity and auditability through automation that validates that the correct amount is paid to each benefit provider, based on reconciliation against enrollment and provider invoice.

► Payment Management

Create auditable electronic ledgers for each of your transactions, providing an easy way to make adjustments and submit payments to each carrier in an employer plan.

Designed for Security and Privacy

Data protection and privacy are of utmost importance to us. The AdminaHealth Billing Suite™ runs on a proprietary platform that was designed based on some of the most stringent security standards. In addition, the AdminaHealth Billing Suite™ has earned the elite HITRUST CSF Certification®, in addition to the validated NIST CSF Assessment.

Built for Enterprise Integration

Our SaaS billing platform ingests all industry-standard data feeds such as enrollment, payroll, and vendor reporting, as well as custom interfaces for an organization. In addition, it enables integration with enterprise applications.

Flexible Implementation Options

Each component can be deployed together, individually, or in any combination to meet your business needs at any time during the plan year.

Data Exchange Integration including Enrollments, Payroll, and Billing

via industry standard EDI, XML, API, or custom format
