AdminaHealth®

Benefits Billing Reimagined

Making Simplified & Accurate Billing a Reality

▶ Data Exchange

The AdminaHealth Billing Suite™ integrates with any enrollment, benefits administration, or payroll platform. All adds, changes, and terminations are processed to ensure an accurate member census for each of your plans.

▶ Total Reconciliation

We automate the reconciliation of census and payroll data with carrier invoices. Discrepancies are posted online in an Exceptions dashboard for resolution.

▶ Bill Consolidation

We generate a consolidated invoice showing both summary and detailed information reflecting the month's activities. You have easy access to what is due to each carrier based on bill type including any adjustments.

Designed for Security and Privacy

Data protection and privacy are of utmost importance to us. The AdminaHealth Billing Suite™ runs on a proprietary platform that was designed based on some of the most stringent security standards. In addition, the AdminaHealth Billing Suite™ has adopted the NIST Cybersecurity Framework and has the earned the elite HITRUST CSF Certification®.

Built for Enterprise Integration

Our SaaS billing platform ingests all industry-standard data feeds such as enrollment, payroll, and carrier invoices. In addition, it enables integration with enterprise applications.

Flexible Implementation Options

Each component can be deployed together, individually, or in any combination
to meet your business needs at any time during the plan year.

Data Exchange Integration
including Enrollments, Payroll, and Billing
via industry standard EDI, XML, API, or custom format

Platform agnostic data comes in, whether add, delete, or change

Rules Engine
Enforces state and federal mandates and pricing & contractual agreements for all enrollment-based coverages

Bill Consolidation
One bill, one payment, covering all insurance products:
- Consolidate multiple bills per carrier
- Include reselling partnerships
- Subconsolidated Bill™ breakdowns

Data Science & Analytics
Your data, our AI algorithms together driving better business decisions

AdminaHealth
Billing Suite™
master enrollment and true-up ledger
