

Simplify Billing

Teaming with AdminaHealth, you can now automate the tedious benefits-related tasks of premium bill reconciliation and consolidation using the SaaS AdminaHealth Billing Suite[®].

- ✓ Integration with Employee Navigator, Ease, or any other BenAdmin platform
- ✓ Initial onboarding in a few weeks
- ✓ Any plan size SMB >100 members, mid-market, and enterprise accounts
- ✓ Any mix of insurance & benefits coverages
- ✓ Over 130 carrier formats for reconciliation
- ✓ Ability to white label for brand consistency
- ✓ White glove support

► Onboarding

The AdminaHealth Billing Suite[®] integrates with any enrollment, benefits administration, or payroll platform. All adds, changes, and terminations are processed to ensure an accurate member census for each of your plans.

► Reconciliation

We automate the reconciliation of census and payroll data with carrier invoices. Discrepancies are posted online in an Exceptions dashboard for resolution. We handle all billing types.

► Consolidation

We generate a consolidated invoice showing both summary and detailed information reflecting the month's activities. You have easy access to what is due to each carrier based on bill type including any adjustments.

► Payments

Provide a digital payment to each carrier from an employer account. The amounts due to each of the carriers are calculated during the bill consolidation process. One account transaction will initiate digital payments to all carriers in the plan.

PREMIUM BILLING

Savings By the Numbers

As clients clear source data of errors discovered during implementation, it is common for them to realize positive ROI covering the first years' platform costs or more.

Clients experience additional direct and indirect cost savings through the ongoing monthly reconciliation process.

ONBOARDING

\$91,476

In total savings

Food Services Company

1,037 Plan Participants

During the implementation process, AdminaHealth discovered that 198 plan participants were enrolled in both a PPO and HMO dental plan from two separate carriers. They negotiated back \$24,948 in adjustments. With eight months left on the plan year, uncaught it would have cost the company an additional \$66,528.

\$18,216

Annual savings by catching this error

Pet Food Distributor

506 Plan Participants

While onboarding, AdminaHealth discovered the sold rates for all plan participants did not match the enrollment causing a \$1,518 monthly overpayment.

ONGOING

\$56,871

In ongoing adjustments back to the company

Healthcare Services Organization

837 Plan Participants

Over eight months, AdminaHealth uncovered the organization being billed for medical premiums of 115 employees who had termed or had waived coverage.
