▶ **Empower HR Teams**

AdminaHealth's cloud-based SaaS platform provides one location to reconcile, report on, and pay for benefits. Equipped with advanced tools including automated reconciliation, digital payments, and benefit expense allocation, HR teams have the confidence that comes from simplified billing.

▶ **Cost Control CFO's Will Love**

Accurate premium billing ensures that organizations are paying only for the benefits they have contracted for and eligible people enrolled in those benefits. Avoid billing errors, premium leakage, and expense oversights with the AdminaHealth Billing Suite.

▶ **Free Up Valuable Time**

The AdminaHealth Billing Suite takes what used to take hours and compresses it down to minutes. With automated processes, centralized management, and white glove support, give valuable time back to your benefits team.

▶ **The Confidence to Support Complex Benefit Plans**

With the ability to integrate with all enrollment, benefits administration, HCM, and payroll platforms, AdminaHealth simplifies administration. Companies can offer robust benefits plans supporting their Employee Experience Strategy.
