- ✓ Ability to White Label for Brand Consistency
- ✓ White Glove Support

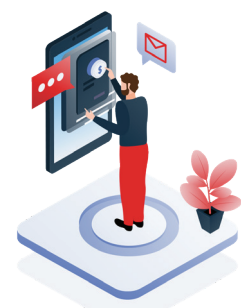

► Data Integration & Audit

The AdminaHealth Billing Suite integrates with any benefits administration or payroll platform. It verifies plan enrollment and rate accuracy, highlighting potential errors for resolution and ensuring peace of mind for employers and employees.

► Reconciliation

The AdminaHealth Billing Suite automates the reconciliation of census and payroll data with carrier invoices. Discrepancies are posted online in an exceptions dashboard for resolution. Our flexible billing platform can handle any combination of bill types (e.g., list bill, self-bill, or pay-as-deducted).

► Consolidation

Generate a consolidated invoice with summary & detailed information across all benefits, for all bill types, including adjustment details on our online platform.

► Payments

Provide digital payments to each carrier. The amounts due to each carrier are calculated during the bill consolidation process. One account transaction will initiate digital payments to all carriers in the plan.
